In-ear wireless headphones
with microphone

その音をあるがままに。Since 1946.

Pure Sound. Since 1946.

E200BT in-ear wireless headphones give you complete wireless freedom while enjoying music on the go. Bluetooth® connectivity lets you stream music wirelessly from any Bluetooth® enabled device. A 3-button remote control and microphone allows music volume adjustment and call answering with a push.

Feature highlights

Semi-closed acoustic architecture with custom designed $\Phi 8.6$ mm high power driver

Sturdy aluminium housing provides a rigid metal cabinet to eliminate unwanted vibrations

Ergonomically shaped silicone caps in 3 sizes to ensure comfortable fit

Twisted tangle-free cable with high quality in-line control

Pure precision

The Onkyo sound signature is clean, clear and precise. The E200BT's 8.6mm high power driver is tuned to give you clear, detailed and natural sound. To maintain audio purity, the headphone housing has been built to eliminate unwanted vibrations. Engineered for precision and performance.

Wireless audio

Bluetooth® is a wireless technology standard for exchanging data over short distances from fixed and mobile devices. Bluetooth® is a universal standard and fully compatible with all Bluetooth® enabled devices. It is easy to play and reliable.

Comfort and craftsmanship

A sturdy aluminium housing and a sophisticated front housing design provides long wearing comfort and durability. Ergonomically shaped silicone caps come in 3 sizes to provide adjustment for the best fit for both sound and comfort.
